

QUALITY POLICY

The Directors and Management of Kierbeck Ltd recognise that the operation of an effective quality system is central to the company's effectiveness.

It is the Company's policy to provide its customers with a first class quality service, which we define as being:

- Certified product
- Compliant with relevant standards
- Cut and bent and/or pre-assembled to the specified tolerances
- Processed and delivered in accordance with the customer's instructions

The company recognises the need for continued improvement, and that the minimum standards of service attained must encompass the relevant British Standards and a Quality System approved by the UK Certification Authority for Reinforcing Steels, which ensures that the customer's requirements are interpreted correctly and satisfied.

All employees of the company are instructed, by the authority of the Managing Director, to abide by the provisions of the Quality Policy.

Finbarr Lynch
